

Carman-Ainsworth Community Education

Offering

Internet Safety

*Do your kids use the computer?
Do they have access to the Internet?
Are they left unattended while using the computer?*

If your answer is yes to any of the above questions then this class is for you. Internet safety is for parents to learn how to keep their kids safe while using the internet. We all know the Internet is a great resource for learning, but with one small error when typing in the subject to search, your child could be introduced to inappropriate information. This class will teach you how to block, monitor and check what your child is doing on the Internet.
